Milton Sills in

'The Valley of the Giants'

A stirring drama of a two-fisted man who pitted himself against Nature and human-nature in the long shadows of the redwoods! A mighty story of love wrested from the hands of Titans! Straight from the immortal pages of the peer of action writers. It's Milton Sills at his strongest and greatest!

THIS WEEK
"Old Ironsides"

Champion Ladies Honor Mrs. Barker

Mrs. Barker was the guest of honor on Thursday, Sept. 6th, when some forty ladies of the Women's Institute, the Pioneer Club and the Ladies' Aid gathered at the home of Mrs. B. N. Woodhall to publicly recognize the imminent departure of an old timer and highly respected citizen from their midst. The affair was featured by the presentation to the guest of the afternoon of a beautiful panel of amber set consisting of mirror, brooch and comb. Mrs. F. C. Alcock, making the presentation, referring to the warm regards paid to Mrs. Barker's value as a resident of the community for many years and expressing regret that Champion was about to lose her. Mrs. Barker, who was completely taken by surprise, replied expressing her appreciation of the honor done her by the ladies of the community and wishing them all many happy years in the future. Mrs. Barker will leave shortly for Michigan, where two sisters reside, to take up her residence. The very best wishes of many friends will follow her to her new home.

Flower Show Prize List

The annual flower show held on Saturday was fairly well attended and the exhibits were surprising in their quality when it is considered so many flowers were destroyed by recent frosts. The ladies served tea during the afternoon. The W. I. is to be congratulated on this splendid annual affair, which has always been an unqualified success and has been the cause of greatly increased interest being taken in the cultivation of flowers. Following is the list of prize winners:

Dahlias, 6 of one color—Ruth Anderson.

Dahlias, 6 assorted—Mrs. P. Daul.

Gladilas, 6 assorted—Mrs. P. Daul.

Gedticias, 12 or more—Mrs. McLeod.

Gladiolas, 6 or more—Mrs. Jim Matlock.

Asters, 6 blooms one color—Mrs. Adam Ferguson.

Asters, 6 blooms assorted—Mrs. Ferguson.

Zinnia, 6 or more—Mrs. McNaughton.

Marigolds, 2 dozen—Barbara Wise.

California Poppies, 2 dozen—Mrs. Neil McLeod.

Poinsettias, any variety—Mrs. Neil McLeod.

Daisies, 2 dozen—Barbara Wise.

Nasturtiums—Mrs. Boner, Ruth Anderson.

Table Decoration, any flower—Mrs. Adam Ferguson.

Table Decoration, Sweet Peas—Helen Hawkins.

Table Decoration, Special arrangement—Mrs. Pharis.

Small vase of flowers—Mrs. Adam Ferguson.

Sweet Peas, one color—Mrs. Adam Ferguson, R. Cowell.

Sweet Peas, mixed—Mrs. Adam Ferguson.

Home Plaques, (four) — Louis Stenberg.

Roses, (special prize)—Mrs. Manly Matlock.

Golden Glow—R. Cowell.

Scarlet Flax—Catherine Gotten.

Bachelor Buttons—Mrs. Neil McLeod.

Spargolopsis—Mrs. Manly Matlock.

Pansies — George Smith, Mrs. Manly Matlock.

Bluebells—Helen Hawkins.

The judges were Mr. M. G. Clever, Mrs. Dell and Miss Gibbons and the work met with general approbation.

The tea was convened by Mrs. Wise and served by Misses Rheta Campbell, Phyllis Basin and Eileen McCullough and was one of real factors in the general success.

Wheat deliveries are assuming increasing volume day by day as the different threshing outfits get into action. With all the threshing rigs and combines in action it will not be long until there will be more or less difficulty in taking care of the grain by the railway and elevators.

We Are Hitting the Mark With Our Prices!

Never before were we so busy filling orders as we are now. Our shelves and stock room are crowded with the greatest quantity of stock that we have ever carried. A large turnover with a small profit is our aim, with a guarantee on everything we sell.

Peaches and Prunes

This week is the best time to purchase these for preserving. The Washington crop is about over and B.C. are just starting but will be higher.

Elberta Wash. Peaches, per crate \$1.75

3 Crates for..... 4.95

Yakima Prunes, per crate..... 1.15

3 Crates for..... 3.25

Hamsterley Farm Loganberries, No. 2 tins, choice quality, Reg. 30c for..... 25c

Heinz Tomato Catsup, 3 bottles for..... 95c

Mixed Jam, asstd., case 12 tins..... 5.95

New Arrivals in Men's Clothing

Cotton Gloves

Brown Jersey Gloves, per pair..... 25c

2 pairs for 45c, per dozen..... 2.75

Grey and Black Cotton Gloves, 3 pr. 1.00

Boss White Canvas Gloves, 3 pairs..... 1.00

Sweaters

Made by Jantzen Knitting Co.

25% off the regular price.

\$2.00 Shirts for \$1.50—\$2.50 Shirts for \$1.00

\$3.00 Shirts for \$2.25—some going at 95c each.

OVERALLS made by Western King, 8 oz. blue denim, real value at **\$1.95**

WORK SOX—Cotton, all colors, 4 pairs for 95c; Merino colored Cotton Socks, nice weight, 3 pairs for \$1.00; Men's black Lisle Socks, 40c pair; Pure wool medium ribbed Hose, per pair 50c.

JOPLING'S

Pickups Expressed

From Factory

Four pickup attachments for Nichols & Shepherd combines, which were expressed from the factory to Calgary at a cost of \$1,700.00 by report, reached the local agent, A. W. Jopling, on Sunday, having been shipped from Calgary by truck at a further cost of \$100.00. The special effort of the factory to fulfill their obligation to purchasers of their machinery will be fully appreciated by those who were waiting for the pickups.

Local and General

Miss Leola Johnson is attending St. Hilda's College in Calgary.

Sharp, working for C. H. Boner, sustained a very bad cut hand in closing the door of a car by pulling on the glass of an open window, on Sunday, to close the car door.

It might be well to suggest that what looked like a deliberate omission of news sent into the office last week was a matter of complete accident and while some of the items lost were important it is hoped those affected will accept this statement.

J. O. Reid has purchased 23 head of purchased Hereford heifers from Alfred Carlton. Mr. Carlton has still 60 head remaining after several recent sales, his herd being highly creditable to the breeder and an asset to the district.

Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50 cents for first insertion 25 cents for each subsequent insertion.

Commercial rates on application.

THURSDAY, Sept. 13, 1928

NOTES AND COMMENT.

While some slight difficulties have presented themselves in the swathing and pickup line this year, with more experience these will be avoided in another season. The fact that in swathing the grain is cut much lower leads to a very heavy swath to be combated to handle.

The street in the vicinity of the Canadian Bank of Commerce, leading north, is to say the least, not very creditable to an "Over a Million Bushel Town" and it would appear highly desirable that either the big signs be removed from the street over which all the through traffic passes fixed up a little. To suggest a wealthy community with such a menace to traffic on one of the most prominent corners does not seem to be just right, somehow.

Had it not been for the fact of an over shipment the Champion Meat Market would not have had sufficient hams and bacon to meet the demand last Saturday. This is not the first time that Mr. Gill has proven that a man who has something to advertise and advertises it well will reap

satisfactory results.

While threshing may be said to be general throughout the district, both combines and the old type machines running to capacity, there is still wheat remaining to be cut, most of it being left for straight combining. Deliveries to the elevators are increasing daily, and will soon reach proportions that will tax the capacity of the handling facilities of both elevators and railway. While yields are varying considerably it is now expected the yield will be well up to the thirty bushel mark as an average.

Some very good yields of wheat are being reported in the area where frost has diminished the yield by a considerable percentage. To the east of Champion many fields are being threshed where over 35 bushels per acre are being realized of undamaged grain.

WHEAT POOL NEWS BULLETIN

The new Alberta Wheat Pool began operations over the Alberta Pool Elevators organization this same time during the latter part of this month. The new terminal which has a capacity of 250 million bushels, is the largest and most modern elevator on the coast. There will be no ceremony in connection with the opening of this new terminal.

New wheat samples coming in to the Wheat Pool office show a high quality than last year's wheat. The price per bushel is ranging considerably higher.

The Alberta Wheat Pool is paying farmers like this: One bushel of wheat will be paid on wheat kept in bin until December 15th, and an additional one cent for wheat delivered after January 15th. Two bushels of wheat is the maximum farm storage allowed.

The total handling for the 100 Alberta Wheat Pool Elevators last year was 1,000,000 bushels. This year the Pool has 300 local elevators. To participate in the Elevators excess profits Pool members must either sell their wheat to the Pool or ship direct to Pool terminals and send bill of lading to the Pool elevator head office.

WILL FIX FINAL TERMS OF WAR INDEMNITIES GERMANY TO PAY

Paris, Sept. 7.—(A. P.)—Great

importance is attached in France to the conversation at Geneva yesterday between Foreign Minister Aristide Briand and Minister of Germany. The conversation is looked upon as the start of prolonged negotiations in which Great Britain, the United States, must take part as allies of France.

These negotiations are to settle two vital questions: the evacuation of the Rhine and fixing of the final terms of the war indemnities to be paid by Germany.

The French mind associates with the Rhine which this country owes to the United States. The view is that Washington and Paris agreed upon the evacuation of the Rhine when they entered upon the Mellon-Berenger agreement under which the original French debt was funded at \$100,000,000 in principal and interest. It is pointed out that France's capacity to pay is partly determined by the fact that she is to receive from Germany.

Germany in turn has indicated that her capacity to pay indemnities is to a great extent dependent upon a fine hand in the Rhine.

The French parliament has not approved the debt arrangement with the United States in view of the reasoning in regard to the German payments it is believed here that ratification of the Mellon-Berenger agreement will considerably depend on the outcome of the negotiations between Germany and the allies.

PREHISTORIC MAN TALKED BY GESTURE

Glasgow, Scotland, Sept. 7.—Tongues of prehistoric men could not form words and the initial communication between them and other human race was mostly by gestures, says Sir Richard Paget, specialist on the development of inventions to promote the welfare of man and advancement of science yesterday.

Sir Richard, who combines science with his work as a barrister, said that the first man, he was told, said that primitive man sang, grunted or roared to express emotion. Illustrating his ideas of the evolution of speech he spoke of a pipe, an organ reed and a cork plunger. With this apparatus he was able to produce numerous sounds of different qualities, including some recognizable words.

Sir Richard said that in addition to his animal-like vocal productions, primitive man used instruments of fire and limbs to convey his ideas to others. As he panted with his hands, his tongue naturally followed his movements.

Then our ancestors developed crafts and his hands became too busy for speech. Finally the time came when the hands were retired and the tongue took their place.

The Impatient West

Twenty-five years ago the population of the three prairie provinces was considerably less than one million people; today it is well over two million people. Nevertheless Western people talk of the slow growth in population, and are severely critical of the Government at Ottawa, irrespective of its policies, in this regard.

Twenty-five years ago Manitoba was largely an undeveloped province, while the Provinces of Saskatchewan and Alberta were yet to be born, this vast territory being known as the North-West Territories, lacking a fully autonomous form of government, and without many of the institutions, services and conveniences enjoyed by the people of other provinces.

Today these three provinces are well organized, as up-to-date as well in most respects, and better in some, than the other provinces.

Twenty-five years ago, with the exception of the main line of the C.P.R. and a few north and south branch lines, this western country lacked railway facilities.

Today the whole country is criss-crossed by numerous main lines

east and west, by branch lines, while a host of

lines of additional value of branch lines are being constructed every year.

In this short space of time, Saskatchewan, the central of the three provinces, has cut-distanced every province except Ontario in railway mileage.

During these twenty-five years the production of the West has doubled

and trebled and trebled; hamlets have become villages, villages have

grown into towns, towns into cities, and new cities have been created, while

systems have been created which compare favorably with those of older

courts of justice have been organized; thousands of schools have been erected; high schools, collegiate institutes and universities established; great

elevator systems have been created; the telephone has been carried into the

most remote rural homes.

During these twenty-five years the wagon, the buggy, has given way to the automobile,

the single furrow plough and yoke of oxen has been superseded to a large

extent by the tractor and gang plough; the winding trails leading across the

prairie, up hill, down, and through the valleys to the far distant little

railway station, calling for days and nights on the road to market a load of

grain, have been converted into well built earth roads, graded to a standard,

and the grain market has been established in the most remote corners of miles of these good market roads have been built in the last ten or fifteen

years, and millions of dollars thereby saved to the people of these provinces.

But are the people satisfied? Not a bit of it. When the well designed

properly graded and constructed road, with good drainage, bridges and

concrete approaches and paved shoulders, the people were enthusiastic

and more than satisfied. But to the best of earth roads makes hard

driving days of rain, and roads which were regarded as entirely satis-

factory even three short years ago, are now regardly criticized and

denied because they are not all-weather roads.

The West is impatient. In many respects it is an excellent quality. The

West, in fact, will be beaten with less than the West. And what of it if

what it wants is not to be done? It is impatient in delay. Thus this year, in

of other provinces, states and countries can have gravelled roads and

paved roads, why can't the West have them? Well, the West can have them

if the people of the West are prepared to pay the price. But Ontario and

Quebec, and the States to the south, and the countries of Europe did not

start having paved roads until they were 100 years old, and with their populations were small, and their accumulated wealth

great. These things came to them gradually. But the West is impatient.

We are living in an age of rapid improvement, and the West must have

everything others have irrespective of its numbers or wealth.

It is not sufficient that in twenty-five years the West has created great

provinces of Oregon, Idaho and Montana, and that short space

of time with institutions, public services, and conveniences which older

and wealthier lands took hundreds of years to provide. Thus it is that

In Alberta the U.S.A. Government, under Premier Browne, the Liberal

Government, under Premier Gardner, in Saskatchewan, and the Branch

Farmers' Government, in Manitoba, are all under fire because they have not

granted the paved roads which the people of the West demand, and with

so the present diets of these provinces would have been enormously increased and the taxes imposed much heavier.

And no sooner are roads gravelled than a new demand is made.

In Manitoba complaint is now made that these gravelled roads are too dusty,

and the Government of that Province is called upon to remedy this condition.

On the prairies, as in the States, there are thousands of miles of

roads provided, running from the United States boundary through the

to the northern edge of settlement, and that at least two other paved

roads should be constructed high across the province from east to west—

a good thousand miles of paved highway at a cost of many millions of dollars.

And along with the demand for more roads, better roads, gravelled

roads, oilled roads, paved roads, is coupled the demand for reduced license

fees for automobiles, and the reluctance to municipalities of a greatly

reduction of the money now collected; in a word, for reduced taxation on the

people. It is a peculiar situation. All Governments being urged to spend

millions more and to collect very much less.

Yes, the West is impatient, and, at times, apt to be a bit inconsistent;

too.

Would Eliminate Punctures

A new type of wheel having two tires, one within the other, and said to be adaptable either to motor or railroad cars, was recently exhibited at the Canadian International Exposition in Montreal. The importance of the machine is recognized by the authorities in that they provide separate bicycle roads running parallel to the outer tire, while the inner one acts as a shock absorber. Punctures are also eliminated.

Leading Athletes

find Minard's ideal for preventing muscle cramps and for lessening the pain of strained ligaments.

Agriculturists are Contested

"I talked with at least one hundred farmers," said Senator Shipton of the U.S.A. States, after concluding a tour through Western Canada, "and I failed to find one who was in any way dissatisfied."

Courtesy opens many doors and lack of courtesy leaves them open.

Helping the Doctor

Dr. Charles H. Mayo, now tells in complete detail just exactly how to run a newspaper and the Ohio State Journal is thinking of writing a two-column editorial on the technique of removing the gall bladder, in case he'd like to know.

Minard's Liniment

Minard's Liniment is the "King of Pain" and for preventing muscle cramps and for lessening the pain of strained ligaments.

Courtesy opens many doors and lack of courtesy leaves them open.

Decrease in Fish Catch

Production in Canada During July Less Than Last July

A decrease in the total catch of sea fish on both Canadian coasts was recorded in July, 1927, as compared with July, 1927. In July last, the total catch amounted to 87,072,800 pounds, valued at \$2,712,332, as against \$7,451,967, or 17,618,800 pounds, valued at \$3,161,600, in July, 1927.

On the Pacific coast, the catch of halibut during the month under review was 3,605,200 pounds, while the catch of the preceding year was 3,712,400 pounds.

COMPLETELY RUN DOWN

Symptoms That the Blood Is Thin Should Not Be Neglected

A run-down, lacking strength, energy and ambition, nervous sleeplessness, poor appetite, digestion disturbance, a great majority of people who have been benefited by the use of these pills correct the condition described and if you have any of these symptoms, their great value in case of this kind is shown by the statement of Dr. J. W. Williams, of the Mayo Clinic, N.S., who says: "I was completely run down in health. My blood was thin and I could not sleep at night. My appetite was poor and my heart was weak. I had a severe headache, and would have to lie down to get relief. A friend advised me to try Dr. Williams' Pink Pills. I soon found out that when I had taken the sixth box I felt like a new woman, and have enjoyed good health ever since. I would like to highly recommend the pills to anyone run-down or troubled with them."

Not only do Dr. Williams' Pink Pills help the nerves, their main value is in helping to restore the blood, and as the blood supplies the body, new life is given to the whole body. New life is given to the skin, hair, eyes, and to the entire system. Improved appetite, increased vigor—all these can be yours by taking these pills. See your physician today. Sold by all medicine dealers, or by mail post paid, at 50 cents a box. Manufactured by Williams Medicine Co., Brockville, Ont.

Pictures From Arctic Cruise

Having completed his annual cruise into the ice-filled waters of the Baffin Straits to within 600 miles of the north pole, the S.S. Beothic of the Canadian Arctic Navigation and Trading Co. has returned to St. John's, N.L., having been delayed in the ice for three months.

In her itinerary the ship followed a course of nearly 7,000 miles, frequently under conditions of extreme severity. This voyage was made in six weeks.

Like a Grip at the Throat

For a disease that is not classed as fatal there is probably none which causes more suffering and disability. Sleep is impossible, the sufferer becomes exhausted and finally, though not immediately, gives way under the dread of its return. Dr. J. D. Kellogg's Aspirin Remedy is a wonderful remedy. It immediately relieves the restricted air passages and thousands can testify. It is sold by dealers everywhere.

Fruits In Peace River Country

Fruits, apples, raspberries and cherries, have not been grown in the Peace River country for many years, and older, and wealthier lands took hundreds of years to provide. Thus it is that

In Alberta the U.S.A. Government, under Premier Browne, the Liberal

Government, under Premier Gardner, in Saskatchewan, and the Branch

Farmers' Government, in Manitoba, are all under fire because they have not

granted the paved roads which the people of the West demand, and with

so the present diets of these provinces would have been enormously increased and the taxes imposed much heavier.

And no sooner are roads gravelled than a new demand is made.

In Manitoba complaint is now made that these gravelled roads are too dusty,

and the Government of that Province is called upon to remedy this condition.

On the prairies, as in the States, there are thousands of miles of

roads provided, running from the United States boundary through the

to the northern edge of settlement, and that at least two other paved

roads should be constructed high across the province from east to west—

a good thousand miles of paved highway at a cost of many millions of dollars.

And along with the demand for more roads, better roads, gravelled

roads, oilled roads, paved roads, is coupled the demand for reduced license

fees for automobiles, and the reluctance to municipalities of a greatly

reduction of the money now collected; in a word, for reduced taxation on the

people. It is a peculiar situation. All Governments being urged to spend

millions more and to collect very much less.

Yes, the West is impatient, and, at times, apt to be a bit inconsistent;

too.

Minard's Liniment

Minard's Liniment is the "King of Pain" and for preventing muscle cramps and for lessening the pain of strained ligaments.

Courtesy opens many doors and lack of courtesy leaves them open.

Wheat Pool Advance Is 85¢

Initial Payment To Fifteen Cents a Bushel Less Than Last Year

A decrease in the total catch of sea fish on both Canadian coasts was recorded in July, 1927, as compared with July, 1927. In July last, the total catch amounted to 87,072,800 pounds, valued at \$2,712,332, as against \$7,451,967, or 17,618,800 pounds, valued at \$3,161,600, in July, 1927.

On the Pacific coast, the catch of halibut during the month under review was 3,605,200 pounds, while the catch of the preceding year was 3,712,400 pounds.

COMPLETELY RUN DOWN

Symptoms That the Blood Is Thin Should Not Be Neglected

A run-down, lacking strength, energy and ambition, nervous sleeplessness, poor appetite, digestion disturbance, a great majority of people who have been benefited by the use of these pills correct the condition described and if you have any of these symptoms, their great value in case of this kind is shown by the statement of Dr. J. W. Williams, of the Mayo Clinic, N.S., who says: "I was completely run down in health. My blood was thin and I could not sleep at night. My appetite was poor and my heart was weak. I had a severe headache, and would have to lie down to get relief. A friend advised me to try Dr. Williams' Pink Pills. I soon found out that when I had taken the sixth box I felt like a new woman, and have enjoyed good health ever since. I would like to highly recommend the pills to anyone run-down or troubled with them."

Not only do Dr. Williams' Pink Pills help the nerves, their main value is in helping to restore the blood, and as the blood supplies the body, new life is given to the skin, hair, eyes, and to the entire system.

Improved appetite, increased vigor—all these can be yours by taking these pills. See your physician today.

Ring-Necked Pheasants

From Oregon Introduced in Medicine Hot District

Fourteen brace of ring-necked pheasants arrived the other day from Oregon, for the Medicine Hot Spring and Mineral Water Company. The pheasants were placed in pens, already prepared for them on the Bray property farm of Ross Creek. The young pheasants are about three months old, apparently, and are about the size of a hen. They are very tame, although considerably longer in the leg. They are a lively lot and apparently have suffered no harm from the trip. The Association is now making arrangements to have the pheasants shipped home in the spring. It is proposed to keep all the pheasants in confinement for breeding purposes, and then to position them to turn loose several hundred, in the fall of 1928, along the creek beds and river flats.

WORLD HAPPENINGS
BRIEFLY TOLD

The engagement of King Boris, of Bulgaria, to Princess Vivian, of Italy, is reported.

Reactions ranging from a sickle to a stiletto bottle are effects in Saskatchewan liquor stores according to the price list issued by the Saskatchewan liquor board.

Attempts are being made to organize a meeting of countries directly interested in the evacuation of the Rhine, and is understood in League of Nations circles.

Only one-fifth of an inch of rain fell in Vancouver, during the month of August, making it the driest August since the taking of records.

The Canadian Mail Contractors' Association "in convention at Toronto, decided to urge abolition of the contract system and the institution of a salary basis of \$60 per month per year."

The New South Wales cabinet has approved the proposal of the state agricultural department to import high quality Aberdeen Angus cattle from Canada as part of a scheme to improve the export beef trade, particularly to the United States.

The U.S. department of agriculture has lifted the embargo on dairy products passing through Montreal. The embargo was placed in effect during a typhoid fever outbreak in the Canadian city. It originally covered 200 miles but has been decreased from time to time.

A new list of broadcasting stations in Canada has just been issued by the Radio Branch, Department of Marine and Fisheries. A careful reading shows that one station has dropped its license, bringing the total number of licenses in Canada to seventy-six. This list supplements the list issued late in June.

Missionaries can explain their religion. The hard part is to explain their civilization.

Little things console us because most of our affections are little ones.

ECZEMA BROKE
OUT IN PIMPLES

Had to Keep Hands Out of Water, Cuticura Heals.

"Eczema started with an irritation and scarring between my fingers. Later it broke out in small pimpls. I washed my hands in a full of water. I had to keep my hands out of water, and I had to wash my fingers. The itching and burning certainly kept me awake at night. I used to wash my hands with Cuticura Soap and Ointment so I sent for a free sample. After using it I didn't have any trouble with it, so I kept repeating so I purchased more, and my hands are perfect after using Cuticura Ointment. I would like to have a box of Cuticura Ointment." (Signed) Mrs. Mary Matheson, Ontario, Sept. 16, 1927.

Farmers' Marketing Tour

Canadian National Railways' Tour
To Great Britain and
Denmark, 1928

(Continued.)

It was not far from Craigie Mains to Hobsland, the home of Mr. Thomas Barr, the Ayrshire cattle breeder, who has been a member of our tour, our leader, Mr. Arville, had spent part of his honeymoon!

It was not far that none of us had ever seen a finer herd than that which was shown to us, fine, big, a picture of what an Ayrshire ought to be. The 75 cows in milk average 1,000 gallons, the 100 dry cows one yielding 1,800 gallons, testing 4 per cent. Most of these cows were dairymen, and the fact that they do a great deal of business in Canada, and, at the same time, a Royal Show is in progress, the owners are from stock of his breeding!

In the opinion of the dairymen the Ayrshires and the Friesians are the best they had seen. Part of the barns are flooded with cattle, and the barns are very clean. Mr. Barr is maintaining that brick flooring is healthier in winter and requires less heating. The barns are very clean, and the condition of the cattle is excellent. It is interesting to note that some of the fields on the farm are in the dairymen's hands.

Mr. Montgomery's Lesseswood farm at Ochiltree which we next visited, is a fine example of a modern farm.

It is a fine example of a modern farm.

Style No. 245 will appeal to women with distinctive taste. It adapts itself to all types of sashes, lace, crepe silk broadcloth, georgette, or crepe crepe blouse, printed, or crepe.

Pattern form is the same as the unusual dress which had been in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34 and 36.

Size 16 (blue) costs 25 cents extra.

ENTIRELY NEW

Plaids at either side of front create a panel effect in attractive and distinctive designs and patterns.

The bodice is modeled to carry out slender silhouette, and has a wide, simple belt.

Fraser River Gold

After more than half a century of neglect, the gold-bearing banks of the Fraser River are being extensively prospected again and mining men predict a new era of intensive development on this famous mineral-rich stream. Not since the early days of the Fraser have prospectors so thoroughly prospected the banks of the river.

Interest in the Fraser, in these mineral-rich farms, we were glad that opportunity permitted us to visit it, if only for a short while, the home

of the Royal Canadian Geologists and of the forest judges in Scotland, because they had gathered at Smithfield and in the Argentine.

We were not disappointed in leaving Duncan, B.C., for the Fraser. Lt.-Col. H. H. Kendal had extended to us the hospitality of their beautiful home on the banks of the river, and in the heart of the birthplace of the Royal Canadian Geologists.

Interest in the Fraser, as were the animals themselves, they were rendered doubly so by the wide variety of mineral wealth which the Fraser contains.

DENIAL MADE OF BAD TREATMENT OF HARVESTERS

Winnipeg—Statements made at a colonization conference charging improper treatment of British harvesters at an immigration hall in Winnipeg were declared false by Thomas Gallo, local immigration commissioner.

Mr. Gallo denied the charge made by Thomas Johnston, Labor M.P. for Dundas, Scotland, that British harvesters had been made an underground cage, guarded by police.

"The immigration authorities have not detained any British harvesters in any way, shape or form, since their coming to this country," the commissioner said.

At the Canadian National Railways Immigration Hall, in the Union station, there is a grating gate and policemen, two members of the Royal Mounted Police and one constable of the police office, who are stationed at the gate recently, while arrangements were being made to ticket the 300 British harvesters back to the old country.

The police officer, said Mr. Gallo, "was retained at the gate not for the purpose of keeping the British harvester in the hall, but for the purpose of keeping unauthorized persons out."

Mr. Gallo was refused admission to the hall because he had not the necessary authority which could have been obtained from immigration or railway officials.

The claim was made by Mr. Johnston at a conference on colonization arranged by the Empire Parliamentary Association. The labor member declared the men were being herded together like sheep and forbidden to go out.

"That is not true," Mr. Johnston declared, "are not in the habit of being treated that way."

Mr. Johnston, Minister of Labor in the Ramsay Macdonald government, was not present to accompany Mr. Johnston and the men had the conditions of his own eyes.

Viscount Pease had no personal knowledge of the situation described by Mr. Johnston, but he had no doubt that at the proper time an investigation would be held and the matter fully looked into.

Novel Sentence For Thief

Must Work For Employer Until Reimbursement Is Made

Ottawa—A unique sentence was imposed by Magistrate Howell in Carlton county police court, when Patrick Quinn, 21, was convicted of stealing \$100 from his employer, Martha Christopher, farmer, of Osgood town. The magistrate sent Quinn back to Miss Christopher's farm "to put in 20 days of honest toil" to retrieve his money for the thief. The magistrate's sentence is a departure from the magistrate's solution of the case, and Quinn was allowed to go on his recognizances to work out his own salvation.

To Seek Nook Craft

The Dr. Nibley N-5, a sister ship of the Dr. Nibley, was engaged for a final attempt to locate the crew of the Italia's crew last seen with the gas bag, says Giolante d'Italia. The drigible will have Matsbach motors and in a few technical details will differ from its ill-fated predecessor. It is said General Nibley himself is supervising the work.

Purchase Northern Mine

The Pas, Man.—Colonel Orbital, of New York, representing certain mining interests in the northern city, has purchased the Pat Pine, Neosap and other groups of claims near Athabasca at Sourough Bay from the Baker Patent interests for a sum which is reported to exceed \$500,000.

Driver Did Not Stop

St. Louis, Mo.—A hit-and-run motorist whose automobile struck and killed Jeremiah Horian, allowed his body to ride in the front bumper of his car for 20 miles before it was run over by the wheels of the car, witness said. The driver of the car did not hesitate.

Canadian Is Appointed

Geneva.—Hon. Phillips Roy, first Canadian Minister to France, was appointed official reporter on the question of settlement of Bulgarian refugees and the Bulgarian stabilization loan, at a session of the League of Nations Assembly.

Rush Serum To Winnipeg

Aid For Sufferers From Infantile Paralysis Sent From East and West

Winnipeg—Children of two cities, Toronto and Edmonton, have come to the rescue of infantile paralysis sufferers in Manitoba.

Some 200 children, the blood of reserves in the eastern and western cities, will be rushed to Winnipeg to aid in checking the spread of the disease and hasten the recovery of its present victims here and at rural points.

In the two cities follow reports broadcast by health authorities in Winnipeg. Numerous recovered victims in Winnipeg have already given of their blood to make the serum, but as a precautionary step it was thought necessary to get a fresh supply from outside points.

In Manitoba, chiefly in the city of Winnipeg, there have been 116 cases of infantile paralysis with thirteen deaths, since the first case was reported in mid-July. Health authorities consider the epidemic is abating.

U.S. Fishing Boat Seized

American Boats Detained By Customs Patrol At Coast

Victoria, B.C.—Seized by H.M.C.S. Triplew and the Canadian customs patrol, the American whaler, in a cove on the west coast of Vancouver Island near Clayoquot, two United States fishing vessels, the Marmot from Tacoma, and the Chief Seattle, were brought into Victoria Harbor recently.

An attack of bronchial pneumonia, following strenuous work during the past year, left Sir Austin in a weakened condition, but it is believed that rest and change will restore him to health and will enable him to resume his duties on his return in November.

Interested In Wheat Pool

British Government Might Buy Wheat From Pool If Ramsay MacDonald Becomes Premier

Winnipeg—If Hon. H. J. Ramsay MacDonald becomes premier of Great Britain, his government may buy its wheat requirements from the wheat pool.

Mr. MacDonald's arrival in Winnipeg next month will be the blood of reserves in the eastern and western cities, will be rushed to Winnipeg to aid in checking the spread of the disease and hasten the recovery of its present victims here and at rural points.

In Manitoba, chiefly in the city of Winnipeg, there have been 116 cases of infantile paralysis with thirteen deaths, since the first case was reported in mid-July. Health authorities consider the epidemic is abating.

Mr. Lester B. Pearson, of the University of Toronto, who has been appointed a first secretary of the department of external affairs at Ottawa, Mr. Ramsay is a man of sound mind, highly educated, and has been a coach of the university football squads for several years and was graduate coach of the hockey team last season. He is a graduate of university and attended Oxford for a year.

Sir Austin Chamberlain Expects To Return

London, Eng.—Following alarming reports regarding the health of Sir Austin Chamberlain, foreign secretary, it is learned that he is in a well informed quarters that there is no reason to suppose that the minister will not return from his trip to the West Indies and North Africa in time to attend the opening of Parliament at Ottawa.

An attack of bronchial pneumonia, following strenuous work during the past year, left Sir Austin in a weakened condition, but it is believed that rest and change will restore him to health and will enable him to resume his duties on his return in November.

RECORD CROP IS BEING GARNERED IN THE WEST

Winnipeg.—The rush to what is estimated as the largest wheat crop in the history of the Canadian West is on in earnest with many thousands of bushels of grain being marketed daily. The rush is expected to continue even before railway officials said.

With threshing reported general all over the West, cutting completed in Manitoba, and more rolling stock and grain elevators in use than ever before, indications are that the whole operation of taking off the crop and marketing it will be completed in next month.

Cutting is reported as practically completed in Saskatchewan and well advanced in Alberta. Interior elevators are swept clean and ready for the pouring-in of the new grain stocks in the lake head terminals.

Reports of wheat yields are favorable on the whole and at most points the grading is high.

Distribution In October

Saskatchewan Pool Money Will Be Paid Next Month

Regina—Although a despatch from Calgary stated that \$1,000,000 net profits would be distributed to Alberta wheat farmers in October, it was not so, said D. McRae, manager of the Saskatchewan Pool Elevators, stating that distribution to Saskatchewan members will not take place until next month.

It is expected that each province will receive its share of the net profits.

McRae said that the committee has

submitted to the pool for its

consideration a proposal to

make a distribution in October.

Reports of wheat yields are favorable on the whole and at most points the grading is high.

AMERICAN AIRSHIP UNDER ARREST

Chicago, Ill.—An American aircraft, which was released on bail but must face trial here because he flew over the Fortunes and landed on the naval field without authorization.

Three men who had flown here with

Acosta and Charles A. Levine, who

sailed for New York, posted \$40 bail

for the American who said he had no money with him.

DRILLING FOR OIL AT UNITY

Unity, Sask.—Unity No. 2 was shot down in the air and

must face trial here because he flew

over the Fortunes and landed on the

naval field without authorization.

Three men who had flown here with

INDUSTRIAL DISPUTES

Ottawa—The latest in industrial disputes in July, 1927, was almost

as long as during June, 1928, but

most double that during July, 1927.

Eighteen disputes were in existence

at some time or other during the

month, involving 2,449 work-people

and resulting in a loss of working

time of 25,763 days.

SAYS NEGRO SUPPORT SMITH

Ottawa.—The black man's vote for

the United States presidency goes to

Al Smith, Democratic candidate,

according to Marcus Garvey, self-

styled "Moses" of the colored race,

who made a dramatic London appear-

ance, saying that he represents 11,-

000,000 negroes, who in turn repre-

sent 400 million more.

NOVA SCOTIA LEGISLATURE HAS BEEN DISSOLVED

Provincial Election Is Set For October First

Halifax, N.S.—The Nova Scotia Legislature has been dissolved. This was announced by Premier E. N. Rhodes, here, following a session of the legislative council.

A provincial general election is set for October 1, with nomination day on September 21.

Coincident with the announcement of dissolution, Premier Rhodes, who leads the Progressive party, issued his manifesto to the electors of Nova Scotia.

By this manifesto a person may receive a message on a blank in New York and in the same time that it takes to deliver a regular telegram, the same message can be sent by telephone.

By this new system a person may receive a message on a blank in New York and in the same time that it takes to deliver a regular telegram, the same message can be sent by telephone.

"The new dray put into service by George Taylor during the past week is a handsome one and is a big improvement on the old dray, which is now relegated to second place in George's string."

After having a surplus of men during the entire season the beginning of threshing has absorbed any surplus men there were and now the supply is not sufficient to meet the demand, many threshing outfits being short-handed.

Mrs. Fisher of Calgary is the guest of Mrs. Millin.

Miss Agnes Patterson is attending school in Calgary.

Mrs. Molly Bastin is attending Normal school in Calgary.

Born—On Tuesday, Sept. 11, to Mr. and Mrs. W. Ellis, a son.

Mr. and Mrs. U. G. Anderson returned from an extended trip to Illinois during the week.

The statement that the duck season opened on Sept. 16 this year was taken from an exchange without justifying the statement. It is to be hoped no one will miss Saturday's shooting in consequence.

J. O. Reid had his new Nash car badly snatched up in a hold-up at Okotoks, while on his way home on Tuesday evening.

W. Melmes, who was accom-

panying him as far as Calgary, received a nasty cut in the neck from broken windshield glass, and Mr. Reid suffered a badly skinned nose and other minor injuries.

Women's Institute Regular Meeting

With a large attendance and an unusually interesting program the Champion Women's Institute enjoyed one of the best meetings of the year on Tuesday afternoon at the home of Mrs. W. C. Hopkins.

Important business items included the adoption of the constitution and bylaws governing the local branch, which will be printed in booklet form a little later. The \$50.00 prize awarded for the exhibit at the Carmangay Agricultural Fair was added to the trust or community hall fund. A report of the annual Flower Show and tea, held on Sept. 1st, was given by Mrs. B. Hummel, who stated that the success of the affair exceeded by far all anticipations and was equally as good as those of previous years in spite of un-

THE CHRONICLE, CHAMPION, ALBERTA

favorable weather conditions. Proceeds from the tea convened by Mrs. F. Wise netted about \$4.00, after prizes and incidental expenses were paid. The various committees together with the ladies who served as judges were accorded a hearty expression of appreciation for their services.

Mrs. F. C. Alecock read a most interesting Links of Empire letter, expressing gratification at our interest in the W.L. overseas.

An excellent report of the recent Constituency Conference held in Barrie was given by Mr. R. S. Bond, the official delegate. In a witty original manner covered all the important items of the session.

Not often are we so favored as to have two out of town speakers on the same program, but it so happened on Tuesday, when Mrs. D. H. Galbraith, constituency chairman on legislation, and Mrs. Martin of Vulcan, constituency convener, were present and addressed the meeting greatly to the delight of those present. Mrs. Galbraith spoke on legislation passed at the last session of the Alberta house, carefully explaining the sterilization act and especially urging the women to ask that at least \$300,000 of the \$2,300,000 revenue accruing through the liquor control act be appropriated toward furthering legislation along temperance lines.

Her address was most instructive throughout and listened to with careful attention.

Mrs. Martin's subject, "The Modern Woman," was very thoughtfully handled, without condemnation of modern standards, caution was suggested in not carrying extreme methods too far. A most helpful talk leaving many phases of the topic which will furnish "food for thought" in the minds of her hearers.

A very pleasing number of the performers gave a violin solo beautifully rendered by Miss Gladys Rhodes.

Mrs. G. F. Smith, refreshment convener, served twenty-six ladies with most delicious sandwiches, cakes and tea at the close of the meeting.

Commercial Stationery of every Description Printed Promptly at the Chronicle Office

the bills you receive at the first of the month you just ought to see ours.

Seasons

Right now the days and nights are of equal length, which is bad. The days are too short for us to get our work done in the night, not long enough for the proper amount of sleep.

The machines you buy from us have to make good—or we do.

If guitars are worn around the neck we'd have to have longer sleeves.

It might be tough to have to stay in hospital so long, but stay at this time—C. H. Suton has our sincere sympathy.

FORD TRUCKS AND CARS

The Ford Motor Co. have opened an assembling plant in Calgary to take care of the truck trade in Alberta and we anticipate no shortage of Ford Trucks after the first of September. This plant will be turning out fifty trucks a day and the output will be increased to one hundred and fifty in a week's time. The Ford Motor Co. has promised us as many trucks as we can use between the first of September and the first of October. Come in and investigate this eleven hundred dollar wonder.

We unloaded two more Tudor Fords this week and it looks like our waiting days are nearly over.

THE SERVICE GARAGE

4 Great Advantages

Others would Pay Millions
to be Able to Give.

No car trouble . . . No valve
leaking . . . Lower up-keep cost
No periodic tie-ups . . . 4 great
advantages . . . The Willys-Knight
sleeve-valve engine ensures them all!

The sleeve-valve motor of the Willys-Knight is an exclusive feature which other manufacturers would pay millions to get . . . but it is protected by patent.

Instead of gradually losing in power
and efficiency, in smoothness and
silence, as do all cars of popular
design, the sleeve-valve engine
improves with a noiseless, smooth
and quiet, more powerful
and more efficient with every mile.

And now—Beltless Shocks—still an
other new and exclusive Willys-Knight
feature—Beltless eliminates the metal
shocks and the car is insulated from the
parts of the car which are in contact with
the ground, with a noiseless, smooth
and quiet, more powerful, and
more efficient with every mile.

"70" Willys-Knight Six prices from
\$1625 to \$1800; Willys-Knight Great
Six, from \$2575 to \$3050; f.o.b.
factory, Toronto, taxes extra.
